

Guide to Web Design

Web design encompasses many different skills and disciplines in the production and maintenance of websites. Computers and applications available in the Spark! Digital Media Lab can be used to build the skills you need to get started in the Web design field.

Lab resources:

We have high powered PC and Mac desktop computers that are outfitted with a suite of industry-standard software, wherever you are in your web design journey.

Check out a full list of the software and equipment we have available on our [website](#).

Come in for a Spark! Media Lab orientation

Find out more about our open hours, services and programs by visiting our [website](#) or calling the Central Library: 818-238-5600.

At the library:
